Education

Bachelor of Science, Computer Science and Engineering, *East West University* 2021

Higher Secondary School Certificate, Science, *University Laboratory College* 2014

Secondary School Certificate, Science, *Ideal School and College* 2012

Professional Experience

Software Developer, *Krishnochura Group* 08/2025 – Present
Dhaka

- **KG HRM (Laravel 11 & React):** Engineered a multi-tenant ERP architected for organization-based data scoping. Developed an automated payroll engine utilizing asynchronous queues for bulk PDF payslip generation.
- **KG POS (POS System, Laravel 11/Livewire 3):** Engineered a multi-branch ERP/POS web app with SPA-like interactivity, a 35-table MySQL schema for multi-warehouse inventory and conversions, an auto-invoice cascade engine ensuring atomic ledger integrity, dynamic RBAC with branch-scoped middleware, background queue/cron jobs, PDF generation via wkhtmltopdf/Snappy, and deployment runbooks for Ubuntu/Nginx + cPanel hosting.
- **E-commerce (Tiles Bazar BD):** Developing a performant tiles marketplace, focusing on optimized SKU filtering, session-based cart management, and secure checkout integrations.
- **Digital Portals:** Managing krishnochuranews.com, implementing custom WordPress hooks and server-side caching to handle high-traffic news delivery.

Freelance Full-Stack Web Developer, *FREELANCE PROJECT CONTRACTS*

- **E-KYC IDENTITY VERIFICATION SYSTEM (Flask, PostgreSQL, Python):** Developed a backend REST API handling document ingestion, OCR data extraction pipelines, and identity verification logs; structured a highly normalized PostgreSQL schema optimized for quick indexing of status flags.
- **CCRET.CA - CANADIAN CENTRE FOR RENEWABLE ENERGY (React, TypeScript, Tailwind CSS, PHP):** Designed and engineered a highly responsive corporate website for a Canadian client using a component-driven architecture in React and TypeScript, incorporating a secure PHP server side to route client-facing inquiries reliably.

IT Executive, *Orogenic Resources (BD) Ltd.* 06/2023 – 07/2025
Dhaka

- **Portal Development:** Coordinated full-cycle development for the WMS Client Portal, partnering with users to simplify requisition workflows and reduce manual latency by 20%.
- **Module Rollout:** Oversaw the rollout of SaaS transmittal modules, ensuring cross-functional alignment between developer targets and user requirements.
- **Infrastructure Reliability:** Maintained 99.9% uptime for internal infrastructure by streamlining security protocols on Linux-based servers.

IT Support Intern, *Mutual Trust Bank (Elephant Road Branch)* 07/2021 – 11/2021
Dhaka

- **Financial Automation:** Authored VBA scripts to automate inter-branch payroll reconciliation, eliminating data entry risks and reducing processing time by 15%.

Projects

KG POS, *Laravel, Tailwind, MySQL*
- Built a multi-branch ERP/POS platform with Laravel 11, Livewire, Alpine.js, and MySQL, featuring SPA-like interactivity.
- Designed a 35-table schema for multi-warehouse inventory, auto-invoice cascades, and transactional ledgers, with dynamic RBAC and background job scheduling.
- Automated deployments across Ubuntu/Nginx and cPanel, integrating PDF generation for invoices and reports.

KG HR Management System, *Laravel, React, MySQL*
- Built a robust multi-tenant ERP/HRM platform with Laravel 11, Livewire, Alpine.js, and MySQL, featuring SPA-like interactivity.
- Designed an automated payroll engine with asynchronous queues for bulk PDF payslip generation, dynamic RBAC with organization-scoped middleware, and seamless employee lifecycle management.

E-KYC (Freelance), *Python/Flask, PostgreSQL*
- Developed a robust Python/Flask REST API supporting document ingestion, automated OCR pipelines, and highly normalized PostgreSQL databases optimized for fast status verification.

CCRET.CA - Canadian Centre for Renewable Energy, *React,TypeScript, PHP*
Engineered a responsive corporate website for a Canadian client using a component-driven React/TypeScript frontend integrated with a secure PHP backend routing system to handle client inquiries reliably.

Technical Skills

Programming Languages
PHP, JavaScript, Python

Databases
MySQL, PostgreSQL, MongoDB

Web Frameworks
Django, Laravel, ReactJS

Tools & Technologies
Git/GitHub, VPS (cPanel)

Operating Systems
Windows, Linux, iOS

Course and Training

DocuWare Training 2024
Shah Alam, Malaysia

Full Stack Web Development with Python, Django & React, *Ostad (Online)* 08/2024
Dhaka, Bangladesh
